

Epic Outdoor Dining Table - Elliptical

GamFratesi - 2020

ITEM NUMBER	Epic Outdoor Dining Table - Elliptical, Botanic Green Quartzite	10137196
DESCRIPTION	Monumental in form, rich in material expression, and inspired by Classic architecture, the Epic Table is one of the most admired pieces in GUBI's collection. Now, GamFratesi has taken the sculptural beauty of the Epic Collection into the open air, offering a refined setting for alfresco dining. The Epic Outdoor Tables are crafted from quartzite, a natural stone prized for its durability, resilience, and resistance to water and extreme temperatures. As richly textured as the travertine editions, the Botanic Green quartzite tables each feature a unique pattern of veins and striations in black and gray, with clusters of glittering quartz crystal. Both round and elliptical versions are available, seating four and eight people, respectively.

KEY FEATURES

Quartzite is a durable and visually appealing material for outdoor use, valued for both its natural beauty and resilience. Its inherent color variations ensure that each piece has a unique appearance. Similar to marble, quartzite often displays veining patterns that range from subtle to dramatic, adding depth and texture to the surface. The honed finish can emphasize its natural ruggedness. With its high quartz content, quartzite can exhibit a gentle sparkle or shimmer when light reflects off its surface, providing a sophisticated appearance, especially in bright outdoor settings. Over time, quartzite may develop a weathered patina that complements its surroundings, while its resistance to fading and staining helps maintain its visual appeal over the long term.
