E15 — KALDEWEI is a premium collection of bathroom furniture and accessories designed by Munich based industrial designer Stefan Diez. The collection is developed and manufactured by e15 for the German heritage brand Kaldewei.

With focus on clear geometric forms and crafted details, the collection is made from solid European oak. Serving various functions, stools in different heights, bench, foot board, towel rack and bathtub bridge in oiled oak are accompanied by soft leather accessories offered in colours Ecru and Elephant. Functional with a magnetic attachment detail, pouch and pillow strap are crafted in leather treated with a water-resistant surface. The warm and natural textures of the collection complement Kaldewei's exclusive range of steel enamel bathtubs and basins, which are offered in a range of colours.

## E15 FOR KALDEWEI

### **EK01 / EK02 STOOL**

HOCKER / STOOL

DESIGN: STEFAN DIEZ, 2023

With focus on clear geometric forms and crafted details, STOOL draws inspiration from traditional wood construction to offer sitting and serving comfort for the bathroom or other areas of the home. With a play on bold geometry, angled legs meet at the top with a connection detail to form a signature look, which is a unifying element throughout the collection. Available in two heights, STOOL is crafted in solid European oak and hand finished at a specialized workshop in Germany.

**EK03 BENCH**

BANK / BENCH

DESIGN: STEFAN DIEZ, 2023

Characterised by its distinct shape, BENCH draws inspiration from traditional wood construction and clear forms to offer generous resting and storage space. With a play on bold geometry, angled legs meet at the top with a connection detail to form a signature look, which is a unifying element throughout the collection. Placed free standing or along a wall, BENCH is suitable for the bathroom or other areas in the home. BENCH is crafted in solid European oak and hand finished at a specialized workshop in Germany.

**EK04 TRIPOD**

HANDTUCHHALTER / TOWEL RACK

DESIGN: STEFAN DIEZ, 2023

A versatile and dynamic quality signifies the essence of towel rack TRIPOD, which offers engaging perspectives in its form. Placed free standing or along a wall, the triangular footprint provides stability and offers resting space for different size towels. TRIPOD is crafted in solid European oak and hand finished by a specialized workshop in Germany.

**EK05 BRIDGE**

WANNENABLAGE / BATHTUB BRIDGE

DESIGN: STEFAN DIEZ, 2023

The playful and essential bathtub companion BRIDGE is characterised by a circular cut-out detail for better handling and the possibility to retain a towel within reach. Utilising the fact that all Kaldewei pieces are produced in enamelled steel, a discrete built-in magnet helps to position the bridge. Crafted from solid European oak and hand finished by a specialized workshop, BRIDGE offers a clear platform for bathing needs.

**EK06 BASE**

FUSSBRETT / FOOT BOARD

DESIGN: STEFAN DIEZ, 2023

Foot board BASE is a well-proportioned and purposeful piece, which brings the warmth of solid wood into the bathroom. With substantial material thickness and traditional joinery details, BASE frames the bathing experience whilst generating an aesthetic addition for the bathroom. The dovetail construction allows the footboard to float and stay elevated above the floor, allowing for air circulation and better drying of the wood. BASE is crafted in solid European oak and hand finished by a specialized workshop.

**EK07 POCKET**

TASCHE / POUCH

DESIGN: STEFAN DIEZ, 2023

Crafted in soft leather, POCKET is a playful and generous pouch, treated with a water-resistant finish and detailed with an invisible magnet. Therefore, POCKET can be simply attached directly to Kaldewei's enamelled steel bathtubs and basins. The responsibly sourced leather is from Sorensen and is available in colours Ecru and Elephant.

**EK08 LOOP**

HANDTUCHRIEMEN / TOWEL STRAP

DESIGN: STEFAN DIEZ, 2023

Smart and practical, LOOP is a soft leather strap, which can hold a rolled towel in place. Providing comfort as a flexible head rest, LOOP can be attached directly to Kaldewei's enamelled steel bathtubs through an invisible magnet. The responsibly sourced leather is from Sorensen and is available in colours Ecru and Elephant.

## ABOUT KALDEWEI

For over 100 years, KALDEWEI – a German family business based in Ahlen – has been finding solutions for individual dream bathrooms. Bathtubs, shower solutions and wash-basins made from KALDEWEI steel enamel give every bathroom a unique character. Steel enamel impresses with its high-quality surfaces, lifelong durability and 100 percent circularity. With new design trends, recyclable bathroom solutions and CO<sub>2</sub>-reduced materials, KALDEWEI consistently sends clear signals for a better and more sustainable environment. In 2021, KALDEWEI was the first sanitary company to sign the "Science Based Targets" and set out to produce products in a climate-neutral way. Today, the company is run in fourth generation by CEO Franz Kaldewei. Kaldewei has been working for many years with internationally renowned designers such as Ettore Sottsass, Arik Levy, Werner Aisslinger, Bethan Laura Wood and Stefan Diez.

## ABOUT E15

e15 is a premium interior brand renowned for its collection of distinct furniture. Based in Frankfurt, Germany the company stands for consistent, progressive design coupled with high-grade materials, refined craftsmanship and sustainable manufacturing. With a strong foundation in architecture and design, the brand is defined by the unique backgrounds of architect and founder Philipp Mainzer together with designer and art director Farah Ebrahimi. Since 1995, e15 develops original products and supports artistic statements, which reflect the brand's philosophy and open approach to diverse cultures and disciplines. In addition to reissued design classics by protagonists of Modernism, the collection evolves from close cooperation with a coterie of designers, architects, and artists.

[www.e15.com](http://www.e15.com)

The collaboration is based on shared values and the unique design expertise of each brand. Kaldewei is a renowned German heritage brand with over 100 years of history in pioneering industrial manufacturing and sustainable products. e15 is a premium brand with a strong foundation in architecture and design, which proposes a new German aesthetic. Stefan Diez is an acclaimed industrial designer known for original concepts and solutions in his work as well for his previous designs for e15 and Kaldewei.

“Kaldewei is a remarkable brand, with impressive industrial production methods and historic roots. e15 shares many values with Kaldewei, both companies stand for progressive design, high-end materials and sustainable manufacturing. Therefore, it was a natural step to create this joint collection.”  
Philipp Mainzer, e15
