

> SOFT EDGE <

By Iskos-Berlin

Soft Edge chair series is based on the next step in the development of moulded plywood techniques. It enables a three-dimensionality that is unusual for ordinary moulded plywood. With Soft Edge, Iskos-Berlin has created a softly shaped seat and back where all the edges face away from the body.

Both versions of Soft Edge (with a steel or wooden frame) are stackable and light, which makes them suitable for any segment of the contract market – from classrooms and auditoriums to canteens and cafeterias.
